OUR PURPOSE

Pursue Your Evolution

EV·O·LU·TION

"The gradual development from a simple
to a more complex form."

AGAIN FASTER
EQUIPMENT

OUR STORY

FUNCTIONAL FITNESS TRAINING IS AT THE CORE OF THE AGAIN FASTER BRAND.

Founded by one of the first senior CrossFit coaches, who quickly identified the need for a new style of fitness equipment as the class groups kept growing.

The initial equipment ranges were designed and sourced, being met with huge interest, which ignited the brand's growth within the community.

In the following years, the CrossFit movement and Again Faster have gone global and surged in popularity. Again Faster has sponsored athletes and competitions across the globe whilst outfitting functional gyms in every region of operation.

CASE STUDIES

A sample of our recent fit-outs

Nottinghamshire County Cricket

- Modernised the existing facility at Trent Bridge which needed a setup geared towards peak performance.
- Athletes needed an effective space for functional movements, Olympic lifting & mobility exercises.
- Designed the facility to include four power racks with a 10m astro track with floor space for group strength training.

Military Training Facilities

- Designed the training facility to allow for effective group strength & conditioning workouts, Olympic lifting and functional movements.
- Utilised the area with 20m long 14 bay training structure with our Rig range custom designed with rope climbing points, wall ball targets and Olympic rings.

Legacy Fitness

- The owners wanted a setup that was geared around functional movements along with specific areas for strength training and technique focused work.
- An astro track was provided, with equipment for functional movements, a power rack was installed along with a dumbbell rack, benches and cardio equipment.

AF

Exertion Fitness

- Space management was key to the design which had a focus on compound lifts with small groups performing barbell movements simultaneously.
- The limited floor space available required the use of our free-standing training rig along with plates, barbells, dumbbells and kettlebells with complementing storage.

Hybrid Performance Centre

- Provided a range of highly durable equipment for functional group training for up to 100 members in one class, Olympic lifting & WOD style training.
- Utilised the custom designed wall to add Wall Mounted Competition Rigs, along with a vast amount of weight plates, kettlebells and dumbbells.

Compound B

- Compound B is a luxury gym based in the Netherlands.
- The Owner needed a space that could meet the needs of group and personal training, and also offer open gym sessions to clients.

COMPANIES WE'VE WORKED WITH

BREWDOG

We chose Again Faster as our main equipment supplier, first of all, because we love the products. The plates are durable and the barbells feel great. The new rig not only looks amazing, but the coating on the bars and the high crossbars are genius. It gives us a lot of pull-up and muscle-up stations.

Benedikte Johnsen,
Coach and Co-Founder of Monolitten
